

Facilities / Equipment Rates

Instrument	Internal Fees	
Cell Sorter- MoFlo Astrios EQ	\$100/hour	No charge for “test” runs (with 1 sample sort), \$100 min charge
Novocyte Flow cytometer 4 laser/ Flo Jo Software	\$50/hour	Training required first
nCounter Sprint NanoString	\$200/hr \$50/run \$25/day 3 with GeoMX	Non-owners for 6 runs in 1 year (\$1,200), then \$25/ run Owners *Note: Hybridization buffer (HB) is also provided by Mary Hamer for this instrument. Contact: mary.hamer@medsch.ucr.edu to obtain HB *Use of nCounter with GeoMX on Day 3 of full run
GeoMX NanoString	\$250/partial run \$500/full run	
Histology Core Tissue Processor Tissue Tek Embedding Station Cryostat- Leica Microtome	\$60/run \$20/hour \$15/hour \$15/hour	*Note: User to supply cassettes for processor *Note: User to supply appropriate blades and OCT *Note: User to supply appropriate blades
MultiPhoton: Nikon A1RPM Plus	\$75/hour	Only imaging time charged, not set up or prep time Non-UCR (Outsider use). No free optimization time *Requires: Access to vivarium 3, IBC approved protocols, training 20 hrs free optimization with new experiment

Notes:

- Assisted support available for some instruments at additional costs.
- *Non-UCR rates are available upon request
